Sir:

I, Jens Ole Bröchner ANDERSEN, a Danish citizen residing at Bytoften 17, DK-8660 Skanderborg, Denmark, hereby declare that every error in this patent which was corrected during prosecution of the present reissue application and which is not covered by a prior reissue declaration submitted in this application, including the changes made in the amendment filed of even date herewith, arose without any deceptive intent on my part. Specifically, in the amendment filed on March 15, 2007, claim 6 was amended to clarify how the structure of the apparatus is related to the process steps, namely, "first, second, and third air-laying forming heads each comprising a house with one or more fibre inlets". Additionally, claim 24 was amended to clarify that the forming heads are air-laying forming heads. In the amendment submitted concurrently herewith, claim 11 has been amended to recite "a nonwoven fabric according to claim 6" that has three layers comprising top and bottom layers of nonwoven fabric and a middle layer of cellulose fibres.

I further declare that all statements made herein of my own knowledge are true and all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of this application or any patent issuing thereon.
